

Community engagement summary report

This report provides a summary of the feedback received during the community consultative committee meetings for the period Feb–June 2020

Sunbury Community Hospital
Community Consultative Committee meeting
Meeting details

Hume Global Learning Centre, Sunbury
Monday 10 February 2020

Engagement purpose

Community consultative committees provide a forum for members of the local community to participate in the planning and development of the community hospitals project through open dialogue and consultation.

The meetings provide a mechanism through which views of the community are heard, emerging issues are monitored, and concerns and priorities of the community are voiced.

Session summary

The meeting updated the group on the progress of the Sunbury Community Hospital and consulted them on the development of the community hospitals overarching service model principles. The project team presented an overview of the Victorian hospital system and the local health context, reported back on engagement and communications activities to date, shared results of the October 2019 state-wide community survey and November 2019 service model design workshops, and responded to questions about the project.

More importantly, the meeting provided a forum to test the community hospitals overarching service model principles. This was done through a workshop activity where committee members rotated in smaller groups to discuss and explore the three service model design principles:

Effective service relationships

Patient-focused services

Community engagement

Who was there

Chair: Josh Bull MP

Foundation members: Representatives from Western Health, Sunbury Community Health, and Hume City Council

Community members: Eight community members from Sunbury area

Staff: Community Hospitals Project Director, VHHSBA Planning, DHHS System Design, VHHSBA Communications and Engagement

What we heard

"A range of formalised partnerships and best practice pathways already exist in Sunbury; we need to harness what is already there!"

"We should procure building supplies locally within our area... local jobs for local people."

"Beyond construction completion, we need genuine community input in ongoing decision making and monitoring local service systems."

"There are many opportunities to educate the community on what this hospital will be, like at the Sunbury Festival in March"

"Health Network interaction with hospital
- both direction communication
- coordinated between services within Sunbury
eg. effective communication between providers"

Issues and sentiment

Many questions over **funding and land options**, in consideration of where this Community Hospital will be located.

A number of queries relating to **timelines and completion dates**, what the milestones are for this project, and what factors may impact this timeline.

Many concerns over the potential for **after hours and urgent care services** offered at the Sunbury Community Hospital.

Insights, themes and opportunities

Principle	Main themes	Opportunities identified
<p>Effective service relationships</p> <p>Develop and maintain partnerships between service providers that build on existing relationships and promote the integration and coordination of patient care.</p>	<p>Shared governance.</p> <p>Information sharing processes and systems.</p> <p>Work with existing local partnerships and family services.</p>	<p>Link with social enterprises and outlets.</p> <p>Seek local procurement opportunities.</p> <p>Relationships with Ambulance Victoria, NDIS, GPs, dentists, Orange Door.</p> <p>Partner with community organisations, childcare, playgroups, libraries, schools, and vocational training.</p>
<p>Patient-focused services</p> <p>Use innovative service models and delivery methods that respond to the needs of local communities and promote the integration and coordination of care.</p>	<p>Single point of entry and no wrong door, facilitate navigation of services.</p> <p>Culturally safe and specific care.</p> <p>Flexible after-hours services.</p>	<p>Have the community hospital be a one-stop-shop and promote seamless service between providers.</p> <p>Set realistic patient expectations, making sure the patient understands the service journey.</p> <p>Multi-cultural and multi-lingual support services, to promote cultural safety and awareness.</p>
<p>Community engagement</p> <p>Engage and empower communities to design services that respond to the local health needs and demand for services over time.</p>	<p>Community education.</p> <p>Continuously provide opportunities for feedback.</p> <p>Reflect community diversity.</p> <p>Vocational training opportunities for local students.</p> <p>Multidisciplinary spaces.</p>	<p>Tap into local networks, and foster awareness about what a community hospital is through local stalls and pop ups at festivals.</p> <p>Joint community database with local government and social and sporting clubs.</p> <p>Promote mental and physical wellness, for example links to aged care services.</p> <p>Build awareness via new and old media.</p>
